

Multi Orders

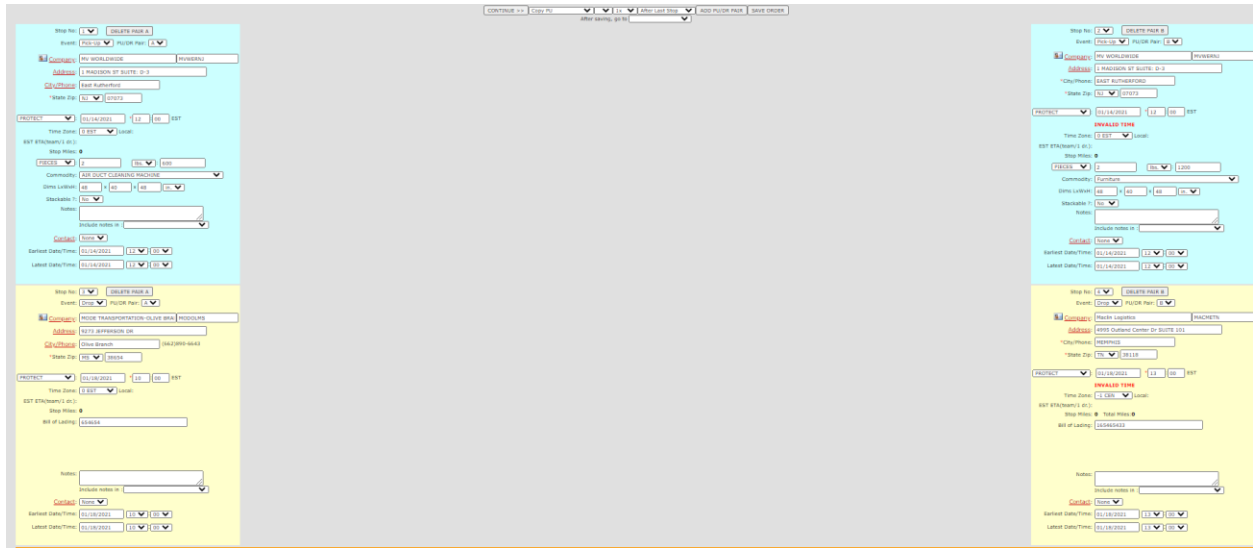

Start off in order entry. Put Customer in order and delivery.

Then at the top of the order, you will need to select copy PU, etc. and how many stops then PU's precede DU's. Hit Add PU/DR pair

You will have 2 PU and 2 DR on the order now. Make sure that you enter all information correctly for each stop. Pieces and weight and any different BOL numbers.

When you hit save you can go back to available if the customer accepts and you have your quote then available load to work with. ***Make sure if it is Multi stops you post the stops*****
